

BOWDLEFLODE NEWS 2nd Edition 2018

Welcome.

Every month we will bring you news from Bowdleflodeland and interesting features about Endangered Species.

All is well in Bowdleflodeland and Neil is busy writing more stories, soon to be published, and Lauren is in her studio in Brighton creating amazing images for the books. Cedric is busy running the office and awaiting your e mails.

CEDRIC in THE BOWDLEFLODE OFFICE

MARWELL ZOO

The closest zoo to our office is Marwell and they do amazing work with the preservation and breeding of endangered species.

They are also incredibly pro—active in educating children and have just had their one millionth student visit their SCIENCE and LEARNING CENTRE which is hugely impressive.

We recommend visiting MARWELL ZOO and they have some wonderful endangered species and adoption programmes.

[Marwell Wildlife, Thompsons Lane, Winchester, Hampshire SO21 1JH.](#)

SNOW LEOPARD

Snow Leopards have lived at Marwell for over 33 years and have bred well. Indeever is a firm favourite in Marwell Zoo.

SIAMANG

An Endangered Species from Malaysia, Thailand and Sumatra

They eat fruit and leaves and love figs!

50% down in population since the 1970's
